

Township of Parsippany-Troy Hills
OPEN POSITION ANNOUNCEMENT
Pumping Station Operator

Department: Water Department

Workweek: This position will require approximately one month of field training Monday through Friday, 7:00 AM to 3:30 PM. Once training has been completed the employee will transition to a regular operator shift which may include nights and weekends.

Wage: Per ordinance. Grade H4.

Definition: Under direction, operates, adjusts, regulates and maintains water pumping station equipment used for the conveyance, transmission and distribution of raw and finished water. Operates and maintains disinfection and treatment equipment, meters, valves, gauges and SCADA controls. Turns valves, pulls levers and flips switches to operate and control pumps, motors and backup electric generators to transfer raw and treated water. Reads flow meters and gauges to regulate equipment according to water consumption demands as well as inspects equipment to detect malfunctions such as pipe leaks, pump and motor failures and treatment equipment failures. Records flow meter readings, pressure gauges, thermometers, continuous chlorine, pH and temperature analyzers. Uses computers to control certain equipment on site and remotely. Tests for chlorine content, pH and other parameters to determine potability of water. Performs daily inspections of the water facilities and keeps accurate records.
Must be available for emergencies and have a mobile phone through which he or she can be contacted.

Knowledge and Abilities:

- Ability to understand, remember and carry out written and oral directions and to learn quickly from written and oral explanation and from demonstration.
- Ability to learn to utilize various types of basic electronic and manual recording and computer systems used by the Water Utility.
- Ability to read, write, speak, understand and communicate in English sufficiently to perform the duties of this position.
- Self-motivated to work in response to emergencies on nights and weekends. **Must be able to work for long periods in emergency situations.**

Education and Experience:

- Must possess a valid NJ driver's license.
- Must possess or obtain a NJ Class B Commercial Driver's License within probationary period.
- Possession of a valid NJ Department of Environmental Protection issued water treatment (T1) operator license or the willingness and ability to obtain license within 18 months of employment. A water distribution (W1) operator license is strongly encouraged to obtain as well, but will not be required.

To Apply: Submit a letter of interest, resume and copy of relevant licenses to James Cryan, Business Administrator at jobs@parsippany.net .

Closing Date: Open until filled.
